

VOLUME 1

TABLE OF CONTENTS

List of Figures	xi
List of Tables	xiii
List of Acronyms and Abbreviations	xv
Metric Conversion Table	xxiii
Preface	xxvii
Executive Summary	xxxI

Chapter 1

Interim Findings and Accomplishments..... 1

1.1 Introduction.....	1
1.2 Collapse of the WTC Towers	2
1.3 Collapse of the 47-Story WTC 7 Building.....	17
1.4 Evacuation and Emergency Response	19
1.5 Procedures and Practices.....	29
1.6 Approach to recommendations	41

Chapter 2

Progress on the World Trade Center Investigation 43

2.1 Status of Data Collection Efforts	43
2.2 Analysis of Building and Fire Codes and Practices (Project 1).....	48
2.2.1 Project Objective	48
2.2.2 Project Approach.....	49
2.2.3 Status of Tasks.....	51
2.2.4 Building Codes	52
2.2.5 The 1968 New York City Building Code.....	57
2.2.6 WTC 7 Fuel System	65
2.2.7 Preliminary Findings	68
2.3 Baseline Structural Performance and Aircraft Impact Damage Analysis (Project 2)	72
2.3.1 Project Objective	72
2.3.2 Project Approach.....	72
2.3.3 Development of Structural Databases for WTC 1 and WTC 2	74
2.3.4 Development of Reference Structural Models for WTC 1 and WTC 2	74

2.3.5	Estimates of Wind Loads on the WTC Towers.....	75
2.3.6	Baseline Performance Analysis of the Towers.....	76
2.3.7	Analysis of Aircraft Impacts into WTC 1 and WTC 2.....	76
2.3.8	Preliminary Stability Analysis of the WTC Towers.....	77
2.3.9	Summary and Preliminary Findings.....	81
2.4	Metallurgical and Mechanical Analysis of Structural Steel (Project 3).....	83
2.4.1	Project Objective	83
2.4.2	Project Approach.....	83
2.4.3	Physical Evidence.....	84
2.4.4	Visual Observations.....	86
2.4.5	Mechanical Properties	87
2.4.6	Correlation with Engineering Drawings.....	87
2.4.7	High-Temperature Excursions.....	87
2.4.8	Significant Interim Results	87
2.4.9	Preliminary Findings	88
2.5	Investigation of Active Fire Protection Systems (Project 4).....	88
2.5.1	Project Objectives.....	88
2.5.2	Project Approach.....	89
2.5.3	Fire History of WTC 1, 2, and 7.....	91
2.5.4	Fire Sprinkler, Standpipe, and Preconnected Hoses	92
2.5.5	Fire Alarm Systems	93
2.5.6	Smoke Management	96
2.6	Reconstruction of Thermal and Tenability Environments (Project 5).....	97
2.6.1	Project Objective	97
2.6.2	Project Approach.....	97
2.6.3	Collection of Photographic Evidence	99
2.6.4	Data on the Building Interiors	100
2.6.5	Insulation of Structural Members	101
2.6.6	Modeling the Fires.....	103
2.6.7	Preliminary Findings	105
2.7	Structural Fire Response and Collapse Analysis (Project 6)	106
2.7.1	Project Objective	106
2.7.2	Project Approach.....	106
2.7.3	Fireproofing of WTC Towers.....	107
2.7.4	Response of WTC 1 and WTC 2 Floor and Column Systems under Fire Conditions	108

2.7.5 Standard Fire Endurance Tests of Floor System	121
2.7.6 WTC 7	123
2.8 Occupant Behavior, Egress, and Emergency Communications (Project 7).....	129
2.8.1 Project Objectives.....	129
2.8.2 Project Status.....	131
2.8.3 Interim Findings and Key Issues	132
2.9 Fire Service Technologies and Guidelines (Project 8).....	138
2.9.1 Project Objectives.....	138
2.9.2 Project Status.....	139
2.9.3 Preliminary Results on Emergency Responder Communications	141
2.9.4 Preliminary Findings	142
2.10 References.....	143
 Chapter 3	
Update on Safety of Threatened Buildings (WTC R&D) Program	147
3.1 Objectives of Safety of Threatened Buildings (WTC R&D) Program	147
3.2 Background and Desired Outcomes of Safety of Threatened Buildings Program.....	147
3.3 Accomplishments of WTC R&D Program	149
 Chapter 4	
Update on the WTC Dissemination and Technical Assistance Program.....	159
4.1 Objectives of the WTC Dissemination and Technical Assistance Program (DTAP)	159
4.2 Background and Desired Outcome of DTAP	159
4.3 Accomplishments of the DTAP	159

VOLUME 1

LIST OF FIGURES

Figure 2–1.	Locations of emergency generators and fuel tanks in WTC 7	69
Figure 2–2.	Example engine impact subassembly analysis.....	78
Figure 2–3.	Oblique view of the subassembly engine impact damage.....	79
Figure 2–4.	Model of the 96th floor and columns of WTC 1.....	79
Figure 2–5.	Model of the core of WTC 1, floors 94–98.....	80
Figure 2–6.	Detail of the WTC 2 impact zone exterior column panels.....	80
Figure 2–7.	Enhanced precollapse image of the north face of WTC 1.....	86
Figure 2–8.	Monitoring station history tape record for the WTC 7 fire alarm system.....	94
Figure 2–9.	Features of truss model	109
Figure 2–10.	Truss model.....	110
Figure 2–11.	Converted ANSYS model of floor 96.....	111
Figure 2–12.	Exterior connection of the floor truss to the spandrel plate.	112
Figure 2–13.	Failure sequence of exterior seats for tensile forces.	112
Figure 2–14.	Typical tensile force resistance of exterior seat connection.....	113
Figure 2–15.	Finite element model of transversely loaded knuckle.....	114
Figure 2–16.	Finite element solution for floor truss under gravity and temperature loads.	116
Figure 2–17.	Truss seat capacity for vertical forces.....	117
Figure 2–18.	Truss seat capacity for horizontal forces.....	118
Figure 2–19.	Compressive stress in longitudinal shear.	119
Figure 2–20.	Shear force versus displacement for two knuckles under longitudinal shear.....	119
Figure 2–21.	Floor truss response due to gravity load and uniform heating.	120
Figure 2–22.	Fabrication of 35 ft span ASTM E 119 test assembly.....	123
Figure 2–23.	Collapse initiation and vertical progression on the east side of WTC 7.	127
Figure 2–24.	Transfer trusses and girders between the fifth and seventh floors.	128
Figure 2–25.	Example of horizontal progression of failure in core columns.	128
Figure 2–26.	Horizontal progression to the west side of WTC 7.	129
Figure 3–1.	Ronan Point Collapse in 1968.....	150
Figure 3–2.	Insulated steel trusses, steel rod and steel column.	151
Figure 3–3.	View of fire compartment from air exhaust outlet.	152
Figure 3–4.	Stress-strain curves of a conventional structural steel.	152

Figure 3–5. High temperature tensile tests to measure performance of structural steel.....	153
Figure 3–6. NIST measured the thermal behavior of gypsum/steel wall assemblies.....	154
Figure 3–7. Exterior flow field as input to CONTAM model of building.....	156

VOLUME 1

LIST OF TABLES

Table 2–1. Status of Project 1 tasks	52
Table 2–2. Summary of compliance with Local Laws 5/73 and 16/84.....	64
Table 2–3. Summary of modifications to base emergency power system in WTC 7.....	68
Table 2–4. Summary of historical fires in WTC 1, 2, and 7.....	92
Table 2–5. Floors of visible damage.....	100
Table 2–6. Types and locations of spray-applied fireproofing on fire floors.....	102
Table 2–7. Specified passive fire protection.....	108
Table 2–8. Reports of WTC decedents.....	135
Table 2–9. Occupancy estimates on September 11, 2001, by tower.....	136
Table 2–10. WTC fire drills in 12 months prior to September 11, 2001.....	137
